

IMPORTANT NOTICE!

Before each use, check for proper blade tension.

Tighten if necessary.

Use Caution: Blades are sharp and can cause injury.

SAFETY SHIELD INSTALLATION INSTRUCTIONS

Note: Safety shield may not have been part of original equipment. Safety shield MUST be installed to capture blade ends.

To change blades, follow the Redco Blade Changing Instructions that were enclosed with the machine you purchased. Make sure to install the safety shield by pressing one in place over the end of each blade block, sliding the shield onto the blade block making sure screw holes align. (See Drawing)
